

My Rooster Report

Prepared for Student A

Thirteen schools ranked by what matters to you:
cost, your odds and your five priorities.

INTENDED MAJOR

Math and physics

SCHOOLS COVERED

13 (10 yours, 3 new)

PREPARED

October 2026

INSIDE

- 1 Letter: you and how this was made
- 2 Data and results
- 3 Scholarship plan (optional)
- 4 Your personal schedule
- 5 Conclusion

Data and estimates, not admissions counseling. A real person answers any question within 48 hours: reply to the email this came with.

About you, and how this was made

Dear Student A and family,

Here is what you told us. Please check it, because everything after this page rests on it. A 3.9 unweighted GPA (4.4 weighted), an SAT of 1480, eight AP courses, and a class rank in the top 5%. You are looking at math and physics, you can pay about \$30,000 a year, and you told us cost matters a lot. Your five priorities, in order: strength of the intended major, distance from home, undergraduate research, campus size and sport or activity fit.

If any of that is wrong, reply to this email and we will fix it. A correction is never counted against you.

How this report was made

1. **Your schools, plus a few you did not name.** You gave us ten. We added three more that fit your major, budget and priorities, and each is marked "New" so you can tell them apart.
2. **Net price from you, not a guess.** The price beside each school is the number its own net price calculator gave you. Where one was missing we used a College Scorecard estimate and marked it.
3. **Odds from public numbers.** We compare your grades and scores with each school's published admit rate and test range. A school is a Reach, Target or Likely. These are estimates, not predictions.
4. **One score for what matters to you.** Cost and your five priorities are blended into a Family Score from 0 to 100. Your cost answer and your ranking set the weights, and they are printed on the next pages so you can see exactly what drove the order.
5. **A person checked it.** Every figure was checked against its source, and the work was reviewed before it reached you.

What this report is not.

It is data, not counseling. We do not advise on essays or application strategy, we cannot promise admission, aid or savings, and we do not tell you where to go. That choice is yours.

Questions, worries, or something that looks off? Reply to the email this came with. A real person answers within 48 hours, every day of the week.

Kevin

My Rooster Report

Your schools, ranked

WHAT DROVE THE ORDER

IF YOU APPLY TO ALL 13

6.9 admissions expected
>99% chance of at least one

#	SCHOOL	SOURCE	TIER	ODDS	NET PRICE / YR	FAMILY SCORE	BEST-ADMIT CHANCE
1	Example College D	Your pick	Target	46%	\$24,000	78.5	46%
2	Example College C	Your pick	Target	18%	\$28,500	75.3	10%
3	Example College H	New	Likely	95%	\$22,000	71.8	42%
4	Example University J	New	Target	66%	\$20,000	70.0	1%
5	Example University M	Your pick	Target	54%	\$29,000	69.8	<1%
6	Example College L	Your pick	Target	39%	\$26,000	69.0	<1%
7	Example College B	Your pick	Reach	12%	\$33,000	67.0	<1%
8	Example College A	Your pick	Reach	2%	\$38,000	62.0	<1%
9	Example College K	Your pick	Reach	2%	\$36,000	61.5	<1%
10	Example University F	Your pick	Likely	95%	\$18,500	59.0	<1%
11	Example University G	Your pick	Likely	95%	\$15,000	55.0	<1%
12	Example University I	New	Likely	95%	\$25,000	43.8	<1%
13	Example University E	Your pick	Target	69%	\$41,000	41.5	<1%

New: Example College H

[Two lines built from data: why this school ranked here, its distance, its program in your major, its aid history.]

New: Example University J

[Two lines built from data: why this school ranked here.]

New: Example University I

[Two lines built from data: why this school ranked here.]

How to read this. Family Score (0 to 100) blends cost and your five priorities. Tier compares your grades and scores with each school's published admit rate and test range. "Best-admit chance" is the estimated chance a school is the highest-ranked one that admits you. Net price is the result you gave us from each school's own calculator, an estimate and not an offer. All figures here are fictional. A school-by-school appendix follows in your full report.

Scholarships that match you

[ADD-ON](#)

This part comes with the Scholarship Scan. It lists merit programs at the schools you are considering and a short list of outside scholarships matched to your profile. Every entry was checked against its own source and dated.

Merit programs at your top schools

SCHOOL	PROGRAM	TYPICAL AWARD	DEADLINE	SOURCE
Example College D	[Program name]	[Amount]	[Date]	[Link]
Example College C	[Program name]	[Amount]	[Date]	[Link]
Example College H	[Program name]	[Amount]	[Date]	[Link]
Example University J	[Program name]	[Amount]	[Date]	[Link]

Outside scholarships matched to Student A

SCHOLARSHIP	AMOUNT	DEADLINE	WHY IT MATCHES
[Scholarship name]	[Amount]	[Date]	[Matches math and physics; open to New York residents]
[Scholarship name]	[Amount]	[Date]	[Reason from your profile]
[Scholarship name]	[Amount]	[Date]	[Reason from your profile]
[Scholarship name]	[Amount]	[Date]	[Reason from your profile]
[Scholarship name]	[Amount]	[Date]	[Reason from your profile]

How we vet these.

We list a scholarship only if it is free to apply, names its sponsor, and has a current deadline. We are paid only by you, never by a school or a scholarship site. Deadlines for these also appear in your personal schedule.

Without the add-on, this page is replaced by a short description of the Scholarship Scan. All entries on this sample page are placeholders.

Everything due, in date order

Built from each school's own deadlines for Student A's 13 schools. The "start by" date works backward from the deadline so nothing lands in the last week. Dates on this sample are fictional.

DUE	WHAT	SCHOOLS	START BY
Nov 1	Early round application	Example College D	Oct 25
Nov 15	CSS Profile and school aid forms	Example Colleges D, C	Nov 1
Dec 1	Application	Example College C	Nov 10
Dec 15	Merit scholarship application	Example College H	Nov 25
Jan 1	Regular application	Example Universities J, M	Dec 10
Jan 15	Regular application	Example Colleges L, B	Dec 20
Feb 1	Application (reach schools)	Example Colleges A, K	Jan 5
Feb 15	FAFSA priority date	All schools	Jan 15
Mar 15	Application	Example Universities F, G, I, E	Feb 20
Spring	Aid offers arrive: send us the new net prices if you have a Season Plan	All schools	When offers arrive
May 1	Decision day	All schools	Apr 15

Watch this one.

[Early-round rule, from the school's own site: for example, whether applying early to Example College D limits where else a student may apply early. We flag every school with a restriction here.]

Next 30 days

Early round application and the CSS Profile for the top two schools.

Busiest stretch

Dec 10 to Jan 15: five applications and a merit deadline overlap.

Aid forms

The CSS Profile and FAFSA dates shown are the earliest any of your schools asks for.

Deadlines are confirmed from each school's own site on the date shown in your appendix. If a school changes a date, tell us and we will correct it for free.

Where the numbers landed

RANK 1

Example College D

Target · \$24,000 a year

46%

chance it is your best admit

RANK 3 · NEW

Example College H

Likely · \$22,000 a year

42%

chance it is your best admit

RANK 2

Example College C

Target · \$28,500 a year

10%

chance it is your best admit

What the data shows

- Two schools, Example College D and the newly added Example College H, hold about 88% of the chance of being your best admit.
- Nine of the 13 schools have a net price at or under your \$30,000 budget. The three Reach schools are all above it.
- Net prices run from \$15,000 to \$41,000 a year, a spread of \$26,000 for the same four years of study.

What the data does not settle

How a campus feels, how you get along with the people there, and whether a school's program is the right one for you are your judgment, and a visit or a conversation with a student will tell you more than any number here. We have not ranked those, and we do not tell you where to go.

Still to confirm

[Number] of your net prices are College Scorecard estimates rather than your own calculator results, marked in the appendix. Final aid offers can differ from any estimate, so compare offers when they arrive.

Next

Your personal schedule starts with the early round application due Nov 1. If anything here looks wrong, reply to the email this came with. A real person answers within 48 hours.

Want us to keep this current as offers arrive? Add updates within 60 days of today for \$400: six changes a month for six months.

Thank you for trusting us with this.
